Testimonials

“Tonight is the first night [in 6 weeks] I haven't had to take a Percocet. I'm relatively pain free! [Three days later.] I went to my chiropractor and she said I was in the best shape today that she's seen me in for the last two months.” **Dr. Victoria Gardner, Spiritual Psychologist, Fort Collins, CO.**

“I developed a fever and felt lousy. My head started to hurt in a weird way, like the bones under my scalp were sore and misaligned. I scheduled a session with Margie. I immediately felt better and noticed over the next couple of days that my head bones were back to normal and feeling fine.”
Deborah D., ForeverGreen MLM Executive, Fort Collins, CO

“I tried a number of other healing techniques. Nothing helped. I felt immediate relief in the two fingers that have been locking up and regarding some personal fears [of] traveling by myself and getting lost. Margie helped me see what I need to do to handle [the fears] for myself.” **Pat Young, Energy Healer, Loveland, CO**

Egyptian Healing Rods – Russian scientific evidence suggests relief of insomnia, stress, fatigue, circulatory disease, gastric distress and high blood pressure. The evidence implies a boost of immune function, improved meditation and psychic abilities. When holding the rods in their hands, most people feel a gentle electric pulse. Russian research proposes that this energy moves through all meridians and chakras, stimulating “chi” or life force. Used by practitioners and individuals at home.

Pyradym Instrument – Physioacoustics component is FDA approved for “relief of pain, stress and improving circulation”. It stimulates the body’s self-healing mechanism, immune and endocrine function using sound, vibration, crystal and light. It also uses sacred geometry of a pyramid to boost the energy balancing.

Quantum Touch™ and Pre-Dynastic Egyptian Energy Work – Feel soothed immediately while your entire energy system is being balanced by the other healing tools. Hands-on-energy work provides high vibration life force energy where you need it most.
