The Boulder Healing Arts Assn. is dedicated to bringing the healing energies of the universe to all those they come in contact with, be it through touch, earth sciences, or the esoteric arts.

We wish to make available to the community, through fairs, clinics, workshops, lectures, etc., the different methods of healing that are available to us. Some members are intuitive readers, energetic healers, bodyworkers, and some work with the stars and the plant kingdom. In whatever realm we do our healing work, it is for the benefit of mankind and mother earth. We promote the abundance of all members and non-members alike. We promote honesty and integrity with a desire to give and receive from the community. We encourage ethical business practices and the support of each other's gifts and abilities.

QUANTUM-TOUCH – POWERFUL ENERGY WORK WITHOUT INITIATIONS

By Margie M. Mulligan, Ph.D.

I've been doing energy work since 1987, learning Pre-Dynastic Egyptian energy work, Reiki, Magnified Healing. I've received thousands of energy healing treatments in the last 15 years and, in my opinion, this is the most powerful. With other energy work, I felt some improvement, the

client felt some relief, but sometimes the other person just did not feel the energy or an improvement at all. I never got the clear, powerful

results that I've gotten with Quantum Touch, and I learned it from the book and some videotapes.

A friend's partner had intense pain from repetitive stress at work and it was gone after 25 minutes. My mother's life long sciatic pain was gone after 15

minutes and she stayed pain-free for a week. Now she's doing QT for herself after reading the book and watching training videos. This work can be used with great success immediately, within the first hours of reading the book. I read the first three chapters of the book, *Quantum Touch*, on a plane, and used the method to go into a very powerful meditation and get a good night sleep when I landed. It is hard not to get excited about the power of this method.

So, what is Quantum Touch, anyway?

It is a combination of focusing attention and moving energy through the body and breathing, in one of several patterns, simultaneously. It involves simple breathing and body awareness exercises that can be easily learned by everyone. As Richard Gordon, the author of the book, *Quantum Touch*, says: "In principal the Quantum-Touch practitioner learns to focus and amplify life-force energy, which is most often referred to as "Chi" or "Prana". This is accomplished by combining various breathing and body awareness exercises. When the practitioner holds a high vibrational field of life-force energy around an affected area, through a process of resonance and entrainment, the client naturally matches the vibration of the practitioner, allowing one's own biological intelligence to do whatever healing it deems necessary."

Quantum Touch with Other Energy Work

Richard reports that, professional practitioners of all kinds (chiropractors, osteopaths, physical therapists, acupuncturists, cranial sacral therapists, chi gung instructors, and Reiki masters) say that Quantum-Touch can be combined with their other energy work with great success and power. Even people who have no prior energy work training can use Quantum Touch, "an elegant and profound hands-on healing method" that they can affectively use immediately. I found that I use QT as a way to increase the power of all three types of energy work I've

used, but most often, I just use QT. For me, it's simpler and just as powerful alone.
