

# What is Quantum-Touch®?

Quantum-Touch (QT) is an easy to learn method of hands-on healing that uses the scientific principles of resonance and entrainment – combined with very specific breathing techniques and simple body awareness exercises – to create a powerful, yet natural, field of healing energy.

There is no physical manipulation in QT. Only the lightest, most gentle touch is used.

QT has been tested in clinical settings and used in hospitals and operating rooms. It has received numerous endorsements from doctors, surgeons, nurses, chiropractors, massage therapists and many others in a wide range of fields; acupressure, Reiki, Qi Gong, Tai Chi, sports trainers and more. Why? Because QT is a safe, natural way to enhance the body's innate ability to heal itself and it shows no limits in what can be accomplished.

Your body has the unfathomable energy to heal itself. You do not have to instruct your body how to heal a cut, a bruise or a broken bone, it has the innate ability to do so. However, if your health is poor or your immune system is in some way compromised, then your body does not have the energy needed to heal itself from serious illness or injury. QT simply provides a powerful field of natural healing energy that your body entrains to and can draw upon to accelerate its healing.

While every individual responds at their own rate and in their own way, the wide range of results being achieved are truly exceptional, justifying the many endorsements received from a wide range of professions and healing modalities.
